“A revolutionary way to label clothing”

INSTRUCTIONS FOR IRON-ON TAGS

- Pre-heat to a medium-high temperature with no steam.
- Using scissors carefully cut out an individual tag.
- Remove the protective white backing.
- Set the transfer so that the image is facing up.
- Using a firm pressure, iron the transfer for 12-15 seconds.
- Please take care to press all areas of the image.
- **After ironing, allow it to cool for a minimum of 1 minute.**
- Then pull the bottom edge of plastic up and carefully peel away.

WASHING ADVICE

Washable up to 40°C

Tumble dry on a cool setting only.
